PORTFOLIO ↗

<https://vikneshvaren2007.github.io/portfoliooclg/>

PROFILE

Creative and motivated Web Developer with hands-on experience building responsive, modern websites using HTML, CSS, JavaScript, Python and Flask. Interested in creating clean user interfaces, practical web solutions and visually engaging digital experiences.

EXPERIENCE

Web Development Experience — 2 Years

Worked on personal and academic web projects, focusing on responsive layouts, frontend interactions, Flask-based backend features, forms, booking flows, deployment and website improvements.

EDUCATION

B.Sc. Computer Science — 3rd Year

Developing strong foundations in programming, web technologies, databases and software development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript

Backend: Python, Flask

Tools: Git, GitHub, VS Code

Core: Responsive Web Design, UI Development, Forms, APIs, Deployment

PROJECTS

PET NEXA — Pet Care Web Platform

A pet-care platform featuring services, specialist information, pet shopping, booking management, order tracking and an AI pet-advisor concept.

ROYAL Rose Milk — Brand Website

A visually rich product website designed around a premium rose-milk brand identity, with animated sections, product presentation and interactive shopping element.

STRENGTHS

Creative problem solving • Quick learner • Responsive design • Clean UI thinking • Project development • Willingness to learn new technologies

CAREER OBJECTIVE

To grow as a professional Web Developer by working on real-world projects, improving my technical skills and creating useful, modern and user-friendly websites.
